

VALUE EDUCATION CELL-2018-19

Today, there is no any place to our great Values orientation in our academic curricular. Actually education should be a man making process; value education is giving this meaning to education. Perception of the need of value education is the basic contextual issue. Today, in the public life we are experiencing the value crisis. The institutional administration has perceived the need of value education and determine to do something concrete in this respect. The college constituted a separate cell under the chairmanship of Miss. Ashtekar Manisha. The members of the cell are- Mr.Vitthal Jadhav, DR. Sachin Prayag. Syllabus of the value education has been framed for the students of B.Com III classes. The idea behind it is giving something valuable to the students while leaving the institutions. Schedules are prepared for term-I and term-II, Resource persons are invited from external institutions, social workers, and eminent scholars. This year total 7sessions was held.....

Following are objectives of the practice:-

- To Inculcate & develop the noble values within the students.
- To Influence the behavioral patterns of the students through emphasizing the practical occupation of the values in the life.
- To generate and sustain the respect about our great ancient culture.
- To provide proper direction to students lives.
- To make the staff well acquainted with our great value system.
- To build the good character, this is one of the goals of higher education.
