Date of Activity: 13/08/2025

No. of Student Participants: 02

No. of Other Student (Audience): 32

Objectives of the Activity:

1. To improve students' understanding of financial accounting concepts.
2. To develop analytical and problem-solving skills in accounting practices.
3. To provide practical exposure to accounting procedures and calculations.
4. To enhance accuracy and logical thinking while solving financial problems.
5. To encourage active participation and collaborative learning among students.
6. To strengthen students' confidence in preparing and analyzing financial accounts.
7. To bridge the gap between theoretical knowledge and practical application in accounting.

Description of the Activity:

A Problem Solving Session was conducted in the classroom on the subject **“Financial Account.”** The activity was organized to strengthen students' understanding of financial accounting concepts through practical problem-solving exercises. Students actively participated in solving accounting problems related to journal entries, ledger posting, trial balance, and preparation of financial statements.

The session focused on improving students' analytical and calculation skills by encouraging them to apply theoretical concepts to practical situations. Students were guided to identify errors, analyse financial data, and arrive at accurate solutions through step-by-step discussion and teamwork. The activity created an interactive learning environment that enhanced conceptual clarity, confidence, and participation among students.
